# Autism Screening

Author: Arun Rajput

Project Overview

- Select from Datasets: Adult or Children Dataset

- Data Cleaning

- Data Visualization

- Feature Engineering

- Explainability using AIX360 algorithms

- Local and Global Explainability for different stakeholders

Model selection using semi-automatic pipeline

Feature importance and Dependency of features on predictions

Visualize which features makes most towards predictions

LALE

LIME

SHAP

AIX360

ELI5

Interpret Local predictions and see if it makes sense

Using BRCG, interpretable 'or'-of-'and' logical classification rules.
